

AMENDMENTS

In the Specification

Please substitute the following amended paragraph for the paragraph beginning on page 7, line 21:

The shielding unit W has an extruded portion W0, a first ground plane A1 formed on the extruded portion W0, and a second ground plane A2 formed on the extruded portion W0 in opposite to the first ground plane A1. In this embodiment, each of the first and second ground planes A1 and A2 have similar L-shapes, and the area of the first L-shaped ground plane A1 is unequal to that of the second L-shaped ground plane A2.

With respect to the shielding unit W, the first ground plane A1 is connected to the first antenna unit 1 and the second ground plane A2 is connected to the second antenna unit 2.
